## THE GOOD OF BEING: GOD, LIFE AND THE BASIS OF ETHICS

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 372 pages. Dimensions: 8.3in. x 5.4in. x 1.0in. The business of this book is to elucidate the connection between goodness, value and worth on the one hand and life, being and existence on the other. This may seem like an abstruse academic project, but I believe it to be of great practical importance. I think that a careful consideration of this topic results in a clear vision of what it means to be a living human being; how we ought to live our lives, and so be happy; and what fulfilment we can reasonably hope for. In the first part of this book (Chapters One to Nine) I argue that mortal existence can only be rationally accounted for and made sense of on the prospect of union with God; as envisaged by Plato of Athens and promised by Jesus of Nazareth. First I discuss rationality, truth, logic and reality; showing how these ideas are interconnected. I then move on to consider physical existence in general before reflecting on the kind of existence which we identify as life, and in particular the life of sentient and sapient beings. Next, I discuss the ideas of beauty, justice, love and value. I argue that they are intimately connected, and ultimately united in the single idea of the Good or God. I then consider the relationship between human beings and God: characterized on the one hand by sin, death and futility; and on the other by mercy, love and immortality. Now, if God is no more than a figment of human imagination, my claim that sense can be made of our mortality by referring it to eternity would not amount to much. Hence, the second part of this book (Chapters...
