DEPARTMENT OF COMMERCE EXECUTIVE SUMMARY OF FINDINGSJobs in the IT field are varied, complex, and specialized, as are the knowledge, skills, and experience required to perform them. Employers seek workers who possess a specific combination of technical skills and experience, often coupled with a college degree, soft skills, and business or industry knowledge. Typically, employers prefer job candidates with the exact skill fit who require no additional training. There is no single path to prepare a worker for a professional IT job. The IT education and training infrastructure has grown significantly in size and scope over the past decade. Today, there is a vast array of IT education and training opportunities, with different types of programs and curricula serving different purposes. The training landscape is complex and challenging to navigate. Growth in Professional-level IT Occupations 1. Rapid advances in digital technologies and their widespread deployment throughout the economy have fueled explosive growth in the demand for workers skilled in the development and use of information technology (IT). A high rate of growth in IT professional occupations is...
