# An Elementary Treatise on the Differential and Integral Calculus (Classic Reprint)

By Dionysius Lardner

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from An Elementary Treatise on the Differential and Integral Calculus Analytical science, after having been long neglected in these countries as an elementary department of education, has, within a few years, been cultivated by the young aspirants for mathematical celebrity with an ardour; and prosecuted with a rapidity and success, which its warmest admirers could scarcely have hoped for. This change would probably have taken place at an earlier period, but for the obstacle opposed to it by the want of treatises on the subject, in our language, of a sufficiently elementary nature. The restless activity of the human mind in the pursuit of knowledge was not long to be checked by so trifling an impediment, and our students soon found in foreign works that which our own professors had failed to supply; and though the medium of these treatises, analytical science began, and has continued, to be cultivated at the universities with singular success.
