

# Hybrid Systems: Computation and Control: Third International Workshop, Hscc 2000 Pittsburgh, Pa, USA, March 23 - 25, 2000 Proceedings

By -

Springer. Paperback. Book Condition: New. Paperback. 465 pages. Dimensions: 9.1in. x 6.1in. x 1.0in. This volume contains the proceedings of the Third International Workshop on Hybrid Systems: Computation and Control (HSCC 2000), which was held on March 23-25, 2000, in Pittsburgh, Pennsylvania. The proceedings of the first two workshops in this series were published by Springer-Verlag, in the Lecture Notes in Computer Science series, as volumes 1386 and 1569. The focus of the Hybrid Systems workshop series is on modeling, control, synthesis, design, and verification of hybrid systems. A hybrid system is a theoretical model for a computer-controlled engineering system, with a dynamic that evolves both in a discrete state set and in a family of continuous state spaces. Hybrid systems research is motivated by, for example, control of electro-mechanical systems (robots), air traffic control, control of automated freeways, and chemical process control. The research area of hybrid systems overlaps both with computer science and with control theory. The workshop series is intended to foster the interaction between researchers from these fields in addressing problems in this new domain. The scientific program of the workshop consisted of four invited talks and 32 contributed talks. The following researchers presented invited talks: K. Butts (Ford Research, USA), N. Leveson (MIT, USA), A. Sangiovanni-Vincentelli (U. California, Berkeley, USA), and B. Williams (MIT, USA). The contributed talks were based on the papers...

## Reviews

*A must buy book if you need to adding benefit. It really is packed with wisdom and knowledge I found out this book from my dad and i encouraged this pdf to understand.*

-- **Mr. Bennie Hirthe**

*Most of these publication is the perfect publication offered. It is amongst the most incredible book we have read through. You can expect to like just how the writer write this pdf.*
